

GET AWAY, GET TOGETHER.

THE FAMILY EXPERIENCE

In our complex world families are being pulled apart. We easily become caught up in the busyness of everyday life and lose touch with those who matter most. We all feel the tension; we all feel the loss of connection. The Family Experience provides an opportunity for families of every kind to escape the pressures of life's constant motion and build resilience.

We are here to work with you on today's problems so that you leave with tools to help you proactively navigate through everyday conflicts. Our staff will walk your family through workshops and activities rooted in interactive learning.

- Practice problem solving through group activities
- Support each other during open discussions facilitated by our coaches
- Learn to communicate during ropes course challenges
- Gain perspective surrounded by nature

Our greatest desire is to help all families, no matter their background, to function the way that God designed them, as a loving and respectful unit. Come grow with us for three days so that you can thrive for the rest of your lives.

INVITING ACCOMMODATIONS

The Family Life and Conference Center, located just outside of Goldendale, WA, hosts comfortable, hotel-style guest rooms and private cabins. There is no need to worry about meal planning and preparation. Share delicious meals in our dining room made with fresh ingredients by our professional chef. With notification, we can also tailor our menu to food allergies and preferences. We want you to be able to focus on what is most important, which is spending time with your family.

- Full access to our lodge's rec room and living room style community hall
- Reflection on our deck with a stunning view of Mt. Adams
- Conversation in front of our fireplace
- Walks by our beautiful waterfalls that will take your breath away

We know that sometimes the most treasured moments with your family happen spontaneously. Reconnect while playing disc golf or bird watching. Discover something new together on one of our guided hiking tours or while geo-caching.

The Family Experience offers the perfect setting for your family to experience healing from the wear and tear of everyday life and to generate lasting bonds that will continue after you leave.

Our facility is also open for group rentals when The Family Experience is not in session. Visit projectpatch.org/family/family_center for more information.

SEMINARS

Project Patch is empowering supportive communities by bringing The Family Experience to your church or others-oriented organization. Project Patch offers seminars on a wide range of family topics such as navigating the challenges of media, setting effective parental boundaries, and raising children as a grandparent.

PROJECT PATCH YOUTH RANCH

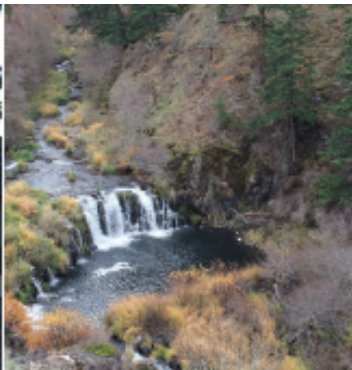

Project Patch is restoring hope to teens by providing the Project Patch residential program at our original facility, a 169-acre ranch located in southwest Idaho. The staff – including a core of professional counselors – work both one-on-one and in group settings with young people, ages 12-17, to guide them through different levels of life skills development, behavior-modification, and value building.
